# INTRODUCTION

### 1.1 AIIMS, New Delhi

An Act of Parliament in 1956 established the All India Institute of Medical Sciences (AIIMS) as an autonomous institution of national importance and defined its objectives and functions. By virtue of this Act, the Institute awards its own medical degrees and other academic distinctions. The degrees awarded by the Institute under the All India Institute of Medical Sciences Act are recognized medical qualifications for the purpose of the Indian Medical Council Act and notwithstanding anything contained therein, are deemed to be included in the first schedule of that Act, entitling the holders to the same privileges as those attached to the equivalent awards from the recognized Universities of India.

### 1.2 Six other AIIMS

However, for AIIMS Patna it may be notified separately before counseling subject to approval/directions from competent Authority.”** As per the directives of the Ministry selection for admission will be done through the same Entrance Examination through which candidates are selected for AIIMS, New Delhi. The admission will be done on the basis of merit-cum-choice of the candidates.

## 8. MINIMUM CUT-OFF SCORES

In accordance with decision of the Governing Body, AIIMS dated 14 September 2013, the minimum cut-off necessary in the Entrance Examination to determine eligibility for admission is **50<sup>th</sup> Percentile**.

## 9. PERCENTILE SCORES

Percentile scores are scores based on the relative performance of all those who appear for the examination. Basically the marks obtained are transformed into a scale ranging from 100 to 0 for each group of examinees. **The Percentile Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW that particular Percentile in that examination.**

The highest score is converted to a Percentile score of 100.

The marks obtained in between the highest and lowest scores are also converted to appropriate Percentiles

**The Percentile Scores would be converted to 3 decimal places to avoid bunching effect and therefore reduce ties**

The following is a further explanation of the interpretation of the scores in an examination with 100 candidates.

- If candidate A's Percentile score is 100, it indicates that amongst those who have taken the examination, 100% have scored either EQUAL TO OR LESS THAN the candidate A. It also indicates that no candidate has scored more than candidate A.
- If candidate B's Percentile score is 90, it indicates that 90% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate B. It also indicates that remaining candidates have scored more than candidate B.
- If candidate C's Percentile score is 50, it indicates that 50% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate C. It also indicates that remaining half of those who took the examination have scored more than candidate C.
- If candidate D's Percentile score is 30, it indicates that 30% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate D. It also indicates that remaining have scored more than candidate D.
- If candidate E's Percentile score is 1, it indicates that none of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate E. It also indicates that all remaining candidates who took the examination have scored more than candidate.

## 10. METHOD OF RESOLVING TIES

The overall merit / ranking shall be based on the Percentile scores.

The method adopted for breaking ties (similar Percentiles) shall be:

- (i) Candidates obtaining higher aggregate marks in all the MBBS/BDS Professional Examinations shall be placed higher than candidates with lower aggregate marks in MBBS/BDS Professional Examinations.

- (ii) In case there is still a tie, after step (i) above, according to age (Date of birth), the older candidate shall get preference over the younger one.

## 11. PREPARATION OF MERIT LIST
