An Act of Parliament in 1956 established the All India Institute of Medical Sciences (AIIMS) as an autonomous institution of national importance and defined its objectives and functions. By virtue of this Act, the Institute grants its own medical degrees and other academic distinctions. The degrees granted by the Institute under the All India Institute of Medical Sciences Act are recognized medical qualifications for the purpose of the Indian Medical Council Act and notwithstanding anything contained therein, are deemed to be included in the first schedule of that Act, entitling the holders to the same privileges as those attached to the equivalent awards from the recognized Universities of India.

Instructions for photo upload:

Click a photo using a digital device

1. Clicking your photo

- Stand/sit against a **white background**.
- Click colour photograph in **bright light** using any digital device (preferably with > 5 megapixel resolution). Avoid using flash as it tends to create a shadow on the white background.

- Ensure that your eyes and both ears are clearly visible on the photograph.

2. Editing of digital photograph

- Transfer** the photograph from the digital device to a computer/laptop.
- Crop** the photograph such that your head, shoulders are visible and occupy most of the image.
- Resize** the image to 50 – 100 Kb (maintain aspect ratio, i.e. height and width ratio to avoid distortion of image)

In case you already have a professionally clicked passport size colour photograph follow the following procedure to prepare scanned image of the same.

1. Before you scan the photograph ensure that

- Photo has been taken against a white background without a border and clearly shows your face, eyes and both ears.

- Paste the photograph in the box drawn.
- Put the paper with photograph in the scanner and **scan only the box with photograph** (do not scan the whole sheet of white paper). **Set the scanning to 200 dpi** and scan the photograph. During scanning most software allows selection of the desired area for final scanning after initial preview & scan.
- Save the scanned images** as jpg/jpeg/gif/png as "Photograph.jpg" or "Photograph.jpeg" or "Photograph.gif" or "Photograph.png"
